

Online Supply Chain Management Major - Newark

The Field

Supply Chain Management is how business gets done. Supply chain management spans all movement and storage of raw materials, work-in-process inventory, and finished goods from origin to consumption.

According to the Bureau of Labor Statistics, Supply Chain Management is projected to continue to be one of the fastest-growing industries

for employment over the next ten years. Countless firms rely on new technologies and the coordination of processes to expedite the distribution of goods.

The use of computers to analyze work routines to optimize the use of available labor has led to increases in productivity. Modern systems development and related processes have created an entirely new set of integrated operations management functions, which require positions such as managers of supply chains, resource managers of material or manufacturing resources planning, and process and inventory control managers.

The Supply Chain Management major offers students the comprehensive knowledge and technical skills they need to ensure employment in leading supply chain management roles.

Career Paths

The new generation of business school graduates who are competent and well-prepared, with solid knowledge in supply chain management, are in high demand across all industries. Supply Chain Management students are prepared for positions such as procurement/sourcing manager, logistics planner, supply management analyst, acquisition project analyst, marketing analyst, and sales/distribution manager. Industries such as pharmaceutical and healthcare are investing heavily in supply chains that achieve new heights of efficiency and productivity.

Compensation

The average starting salary for a Rutgers graduate in supply chain management with a bachelor's degree is \$63,750 / year. Source: Rutgers Office of Career Exploration and Success for the graduating class of 2020.
